

# Amman Academy, Amman

## INFRASTRUCTURE & FACILITIES

The campus feels well maintained and generally welcoming for students. Classrooms are bright and functional, which helps create a good learning environment. Outdoor areas are adequate, though they can feel a bit limited during busy times. Safety measures appear consistent, which is reassuring as a parent. Some shared spaces could benefit from minor upgrades. Overall, the facilities support learning reasonably well.

## ACADEMIC QUALITY & CURRICULUM

The academic program feels thoughtful and well balanced across subjects. My child is challenged appropriately and encouraged to think independently. Coursework reflects international standards while remaining accessible. Assessments are clear and aligned with what is taught in class. There is a strong emphasis on skills, not just grades. We feel confident in the academic direction of the school.

## PARENT-TEACHER COMMUNICATION

Communication from the school is generally consistent but can vary between classes. Some updates are detailed and helpful, while others feel a bit brief. Meetings are available when requested, though scheduling can sometimes take time. Digital platforms are used, but not always to their full potential. Important information does reach parents eventually. With more consistency, communication could feel smoother.

## STUDENT EXPERIENCE & WELLBEING

My child feels comfortable and safe at school most days. There is attention given to emotional wellbeing alongside academics. Students are encouraged to express themselves and participate in activities. Support systems exist, though they could be more visible to parents. The overall atmosphere feels caring. We see steady social growth in our child.

## **TEACHER QUALITY & STABILITY**

While many teachers are dedicated, there has been noticeable turnover. This has made continuity a challenge for students. Some transitions were not communicated clearly in advance. Teaching quality varies depending on the class. It can take time for new teachers to fully settle in. Greater stability would help build stronger trust.

## **SCHOOL LEADERSHIP & COMMUNITY**

Leadership appears approachable and open to feedback. The school makes an effort to foster a sense of community among families. Events are inclusive and reflect the diversity of the parent body. Decisions are usually explained, even if not everyone agrees with them. There is a sense that leadership wants the school to improve. Overall, the community feels supportive.

## **RESOURCES & CAPACITY**

Resources sometimes feel stretched, especially as enrollment grows. Certain support services seem limited in availability. Class sizes can feel larger than ideal at times. While teachers do their best, additional staffing would help. Some programs feel constrained by capacity. Better resource planning would benefit students.
